

**The Combined Degree Exhibition celebrates the dedication and passion of the students of the Tufts/SMFA 5-year Combined Degree program. These students navigate daily between Medford and Boston, pursuing and dedicating themselves to both academia and the fine arts.**

**This inclusive show illustrates their interdisciplinary nature through their works, the evident inspiration from their studies at Tufts, as well as through their creative occupancy of the most academic space on campus.**

**We are honored to have the opportunity to share the other half of our story for the first time here in Medford.**
